1. Project Information

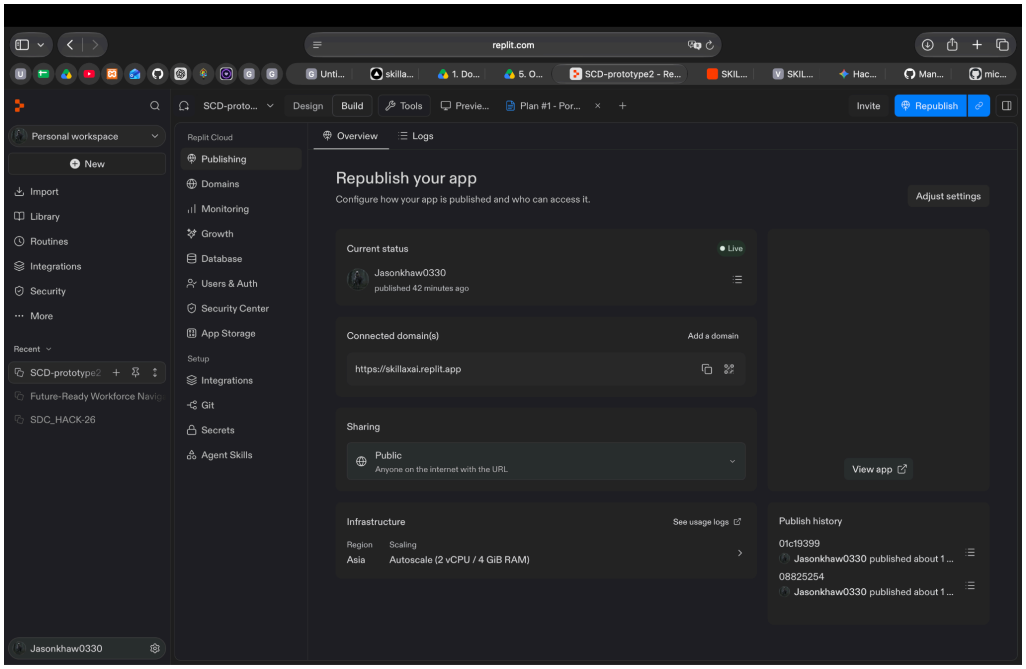

- Project Name: SKILLAX AI Platform
- Hackathon: SDC Hackathon 2026
- Sponsor Resource: Replit Core / Replit Platform
- Purpose: Website deployment and prototype iteration

2. Description of Use

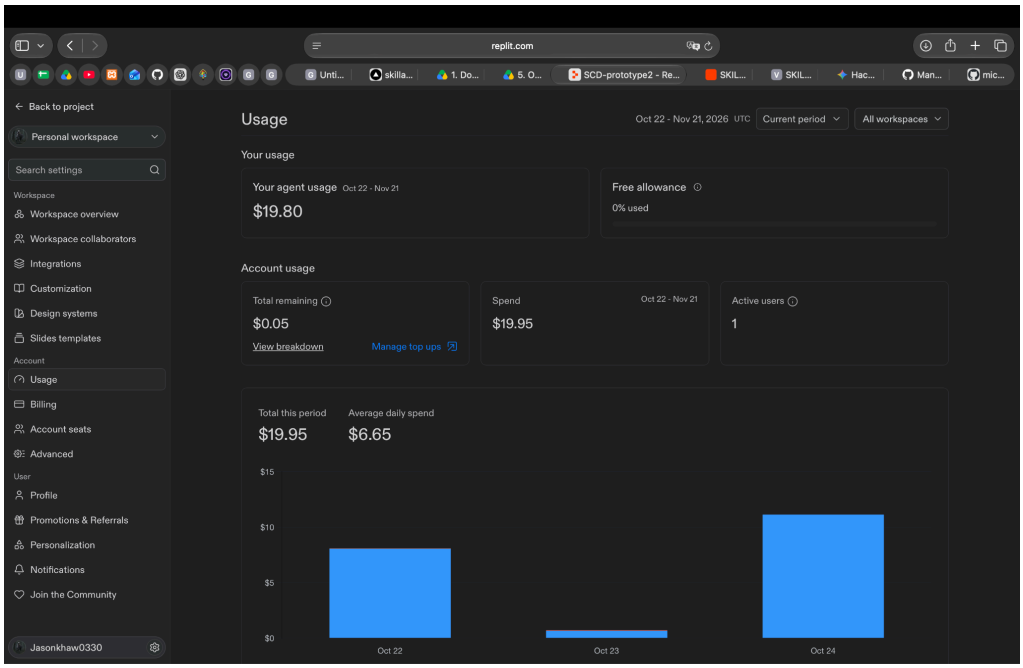

Replit was used to deploy the SKILLAX AI Platform prototype and make the website accessible for demonstration and review. The platform also supported iterative refinement by allowing the team to review the deployed application and identify potential improvements. Replit served as a development and deployment resource; the core career-matching and skills-analysis logic was implemented within the project itself.
