Replit Proof of Use

EVIDENCE PENDING

The repository contains a Replit configuration, but account use and deployment have not been verified. No authentic team-provided Replit evidence was present in the project files.

Replace this page with authentic, unaltered evidence before submission.

Evidence to add
• Replit workspace showing this project and its owner/team context.
• Run or deployment view showing the app running, with project identity visible.
• Public Replit project or deployment URL, if one exists.

This placeholder is not evidence that the team used or deployed the platform.
